REMARKS

- 25X1 1. An airfield was located at Chocen (O 51/N 09), south of the railroad line to Vysoke Myto, and about 1 km east of Slatina railroad station. The field covered an area of 500 x 1,500 meters. It was used as a factory airfield of Chocen Let Plant which was a branch factory of Letav Works in Prague.
2. About 15 aircraft of Sokol and Storch Types were usually parked in front of two wooden hangars on the western edge of the ☐ in Let Plant and test flown at the field. ☐ pilot of Let Plant.
3. The airfield south of Chocen-Vysoke Myto railroad line was about 500 x 1,000 meters. Two brick hangars were situated on the southwestern edge of the field. A two-story building which belonged to the aircraft factory in Chocen was located on the northern edge of the field. The field was guarded by SMO and factory police of the aircraft plant. It was used as a factory airfield by Chocen aircraft plant which probably belonged to OMD Works. Sokol type aircraft and a Storch were stationed at the field. The Storch was flown by SMO members. *

ILLEGIB

25X1 * ☐ Comment. The report confirms previous information. ☐

25X1 Although the data on the size of the field and the type of construction of the hangars differ it is suspected that the two sources are identical.

25X1 ☐ furnished a schematic diagram of the field which is believed

25X1 to be correct. ☐
